George P. Burdell: the legend lives on

By Kyle Thomason
Editor Emeritus

He’s the most famous, well-traveled and mysterious Tech student. Ever.

George P. Burdell first enrolled at Tech in 1927 and, since that time, his legend has become a beloved part of the Institute.

In 1930, Burdell earned a Bachelor of Science degree. He studied at Harvard for a short time before shipping off to England where he flew bombers for both the Navy and the Eighth Air Force during World War II.

Burdell is more than just a gifted engineer and patriot—he is also a prolific writer, having penned countless letters to the editor that have appeared in newspapers, and he served on MAD Magazine’s board of directors from 1969-1981.

Burdell’s name frequently appears on credit card applications. He is often paged by unsuspecting operators of public address systems at Tech away games and other large events.

Of all Burdell’s achievements, perhaps the most notable came in December 2001. Burdell garnered the most votes in an online poll for Time Magazine’s Person of the Year. Then, inexplicably, Time pulled Burdell out of the running, paving the way for George W. Bush to claim that illusory title.

The origin of Burdell may never be known for certain, but the most likely story was described in a 1977 article in the Atlanta Journal-Constitution Magazine.

The article explains that in 1927, William Edgar Smith, BS ‘30, received an extra admissions application. Instead of throwing the form away, Smith decided to fill it in for George P. Burdell, the disciplinarian headmaster of his high school.

Smith changed the name at the last minute to Burdell, the maiden name of his best friend’s mother.

The prank didn’t end there. Whenever a professor would take roll, students in the back of the classroom would answer for Burdell.

The name was put on every course offering at Tech and later, the legendary Tech student.

The prank did not end there. Whenever a professor would take roll, students in the back of the classroom would answer for Burdell.

Smith even handed in exams for Burdell, changing his handwriting enough to fool professors. In 1930, Smith and Burdell both received Tech degrees.

Smith’s creation soon took on a life of its own. Burdell resurfaced at Tech with the advent of automated registration in the spring quarter of 1969. Burdell registered for every course offered, more than 3,000 credit hours. He did the same in 1975 and 1980, despite attempts by administrators to keep him out.

Burdell seems to have found a more permanent position at Tech in recent years. “The continued clamor and ridicule of my name can no longer proceed,” Burdell wrote in a column in the AJC.

“I am and have been for 10 years dean of humanities and the arts.”

The Tech tradition of George P. Burdell now passes to the incoming class.

“I am and have been for 10 years dean of humanities and the arts.”

The Tech tradition of George P. Burdell now passes to the incoming class. Both alumni and undergraduates look forward to the creativity of the freshman class in ensuring the continued success of Tech’s most famous student.

sliver

Having to go to 8 a.m. classes in Tech Square during the summer stinks

I <3 EFJ

Does anyone know of a way to get funding for the Disney conference from some source, maybe profits? Do they do that—help students? dang frosh, taking up all our housing and pushing us into GLC housing!!!

Ethan is the coolest person working at the nique

Does a person need a license to drive the golf carts to deliver niques on fri morning? RIP EFJ

I love the nique!! you guys just need to get better questions for “BUZZ Around Campus”

I once got an email from a teacher saying that I should use spectrum because it is the official Gt email system (even though it rarely blocks spam mail). Gt should consider switching email systems to something better or allow us to use other services....

I would read it right after the slivers and write your own column?

I would read it right after the slivers and write your own column?
**The dictionary of essential Tech terms**

**A**
The first letter of the alphabet. It also allegedly appears on grade reports. We’ll believe it when we see it.

**Acronyms**
Used for anything and everything on campus. Examples include buildings (MRDC), majors (ME) and colleges (CoC).

**Brittain Beach**
The patch of grass in the East Campus quad where freshmen traditionally throw frisbees and sunbathe in summer and spring.

**Bursar’s Office**
The place where you take your money, or your parents’ money, or the government’s money, but no credit cards...

**BuzzCard**
Student ID and campus debit card. Don’t leave home without it.

**BuzzPort**
A portal for Georgia Tech web resources, at least we think. Mention BuzzPort to an upperclassman and you’ll probably get a puzzled look.

**Caffeine**
Sleep in a bottle, cup or other non-bed form.

**Chem Annex**
One-fourth of the College of Computing’s building.

**Clyde Bumps**
Giant speed bumps (near the CoC and CRC, for example) that are only crossable at speeds under five miles per hour (any faster, and you’ll make the guys over at Midas very happy and very rich). Named for Clyde Robbins, who at one time was responsible for campus planning. See also Clyde Walks.

**Clyde Walks**
Term for the sidewalks that have bricks in them. Another useful innovation of Clyde Robbins. See also Clyde Bumps.

**Coed**
A female college student was first admitted to Tech 52 years ago. Although more sightings are reported each year, females only account for around 30 percent of the student body.

**College of Computing Building**

**Complaining**
Something all Tech students are expected to do often and well. Good examples can be found on newsgroups and in Technique letters to the editor.

**CRC**
Campus Recreation Center. A place to exercise and forget about differential equations for a while.

**Cumberland College**
The school that the Tech football team defeated 222-0 in 1916.

**Dead Week**
The week before finals during which you are not supposed to have any tests. Be forewarned: some professors don’t understand this concept, at all.

**Dean’s List**
Only takes a 3.0...sounds easy, doesn’t it? Just wait.

**D.M. Smith**
History and Social Sciences building across from the library. Does not have a state-of-the-art air conditioning system.

**Drop Day**
The Friday that marks the last day to drop a class. It’s recently been moved to a point later in the semester, taking some of the guessing out of the decision to drop a class. You freshmen have it so easy...

**Drownproofing**
A P.E. class that was required of all freshmen in the past. The class involved being tied up with rope and thrown into a pool. The goal was to allow you to survive indefinitely in the water through a variety of techniques.

**E-Mag**
PHYS 2212, considered one of the most difficult and/or confusing classes at Tech. Back under the quarter system, the saying used to go, “E-Mag, Re-Mag, Three-Mag, Management.”

**Faculty Honors**
A 4.0? Keep dreaming...

**Flag Building**
a.k.a. Student Services Building. Houses the Dean of Students office and the Technique.

**Flush Letters**
Letters of rejection from prospective employers. Three or four will sometimes get you a free meal.

**F.O.**
Frosted Orange. See The “V.”

**Gates**
The best development in parking, ever. Please do not break them.

**The Student Services Building is nicknamed the Flag Building because of the colorful banners hanging from the atrium ceiling which represent the various countries from which Tech students hail.**

**Internships**
Public Policy students intern with:
- Georgia General Assembly - Former Chief Justice William Rehnquist - Consulate of Israel - Federal Deposit Insurance Corporation - US Environmental Protection Agency - Michelin Tire (environmental policy) - British Trade and Investment Office - Law firms (workers compensation, public affairs) - Clean Air Campaign - Georgia Department of Economic Development

**Education**
Many Public Policy students continue their education:
- Law (Stanford, Vanderbilt, Emory, Syracuse) - Statistics (Columbia) - City and Regional Planning (University of North Carolina, Illinois) - Public Policy (Harvard, Georgia Tech) - Public Health (Emory)

**Employment**
First jobs in Public Policy include:
- Government relations expert for a business corporation - Legislative lobbyist at a state capital - Grant writer for a grass-roots advocacy organization - Research analyst for K-12 education projects - Program officer for state rural development councils - Fiscal manager for a state legislature - Political director for a gubernatorial campaign - Attorney for King & Spalding, Atlanta - Research fellow in biomedical ethics - Staff assistant to a member of Congress

[Visit www.spp.gatech.edu](http://www.spp.gatech.edu)
The CareerTech Portfolio is an online tool which allows students to:

- describe their activities and reflect on how those experiences have enhanced a particular skill or ability;
- use the information contained in the online system to create and store multiple resumes;
- develop three individualized portfolios which can then be shared with potential employers or organizations during their application processes.

How to find your way on campus

The area filled with old, historic buildings between the Administration Building and the Library is Tech Tower. The Admin Building houses the library, the administration department, numerous stores and restaurants, and numerous student organizations. The library is the heart of Tech's intellectual pulse. This is where you’ll find a computer lab on the first floor of the library, and perhaps the nicest on campus.

MARTA
Metro Atlanta Rapid Transit Authority—since freshmen don’t have cars, this is your way around Atlanta, unless you can sucker an upperclassman into driving.

Midnight Madness
Starting the Sunday before finals and continuing every night during finals, students gather at midnight in public areas around dorms or lean out their windows for the age-old tradition. Promptly at midnight, students scream and yell to relieve the stress of their finals preparation.

Office of Information Technology (OIT)
The campus computer office with a resource center in the Library.

Olympics
Hosted by Atlanta during the summer of 1996, Tech served as the Olympic Village. Most on-campus apartments were built around this time.

OSCAR
Not a green muppet. Online Student Computer Assisted Registration; it’s how you get classes, view your grades, pay your bills and, eventually, check you graduation status.

Parking Permit
Once just a hunting license before former Parking Director Rod Weis stepped in and restored some order; most freshmen can still leave this one out of their vocabulary.

RAT
Any freshman. Recruit At Tech, or Recently Acquired Tech Students. Originates in Tech’s strong military roots.

Silver
A comment, quip, inside joke or one-liner that runs in the Technique Sliver Box. Contribute one at www.nique.net.

Square Root Club
The elite club that only admits members who meet this stringent criteria: The square root of your GPA is greater than your GPA. Get it? Don’t strain your brain too hard...

Staff
The hardest-working professor at Tech. He teaches most of the lower-level classes, but never receives any credit. Why isn’t he in the course evaluation?

Stinger, Stingerette
Campus vans and buses. They aren’t on a strict schedule so budget extra time if you want to make it to class, or just get some exercise and walk. An hour should be enough. See also Tech Trolley.

Student Center Commons
The Houston Building. Used to be the Tech bookstore. Now houses student orgs, WREK Radio, and several stores and restaurants.

Tech Trolley
Not really trolleys. They’re actually Stingers disguised as trolleys, with much more uncomfortable seats. They run from the IC to Technology Square.

Tech Trolleys
Not really trolleys. They’re actually Stingers disguised as trolleys, with much more uncomfortable seats. They run from the IC to Technology Square.

Tech Tower
The Administration Building. The Ts atop the tower are probably more heavily guarded than anything else on campus.

Tuesday at 7 p.m. in Room 137 of the Student Services Building.

Technology Square
Tech’s giant leap across the Downtown Connector. Home of Barnes and Noble @ Georgia Tech, a hotel, the College of Management, and numerous stores and restaurants.

Thrilldome
The basketball arena.

V.* The Varisty drive-in located on North Avenue. At least get a fried pie and an F.O. Also known as “The Greasy V.” Claims to be the world’s largest drive-in.

Whistle, The
The steam whistle that blows to signal class changes at five minutes before the hour. It also blows whenever Tech wins a home football game, and each spring during the “When the Whistle Blews” remembrance ceremony.

Word
Old texts and notes help to study for tests. Some professors change their tests all the time, but remember that most people are lazy.

LIFEGUARDS
WANTED

Fall, 2006 at CRC
Starting Pay - $8.00/hour

Turn in an application TODAY @ Member Services Desk in CRC

Ellis and Associates, Inc. (E & A) Lifeguard license required for employment. See training schedule below. *Cross-over course available with current certification from another program – contact Jordan Wienke.

E & A Course Schedule:
Must attend ALL dates and times
Thursday, August 31 5:30 – 10:00 p.m.
Friday, September 1 5:30 – 10:00 p.m.
Saturday, September 2 9:00 a.m. – 2:00 p.m.
Sunday, September 3 12:00 – 6:00 p.m.

Cost: $100, includes book and licensing fee.

Registration begins August 14, 2006 at the Member Services desk in CRC

www.MidtownCommunityChurch.com • Easy walk from Georgia Tech

Sunday Nights @ 6:45 PM
1095 State Street • Atlanta, GA 30318
These are just a few of the many events that have defined Georgia Tech since its creation almost 120 years ago.

Dr. Isaac Hopkins becomes first Tech president.
Administration Building and Shop constructed.
First class of 84 students enrolls.

1885
Georgia School of Technology founded.
The Tech football team defeats UGA in Athens 28-6. Irate UGA fans pelt the team with rocks.

1888 1893 1896
The first on-campus housing opens. “The Shacks” have no running water or electricity.
Dr. Lyman Hall named second Tech president.

1905 1906 1908 1911
ANAK, a secret society, founded.
First Blueprint published.
First Technique published Nov. 17.
Tech football defeats Cumberland College 222-0, the largest margin of victory in history.

1916 1919
George P. Burdell attends class for the first time.
Tech awards first M.S. degree.

1920 1922 1925 1928 1930
Dr. Marion Luther Brittain named fourth Tech president.

1944 1945 1948 1951
The organization that will become the Ramblin’ Reck Club is founded.
Bobby Dodd becomes head football coach.
The tradition of blowing the Whistle after football victories begins.
Women are admitted to Tech for the first time.

1952
To Hell With Georgia
Sung to the tune of “Battle Hymn of the Republic”

Don’t send my boy to MIT
The dying mother said,
Don’t send my boy to Emory
I’d rather see him dead.
But send my boy to Georgia Tech
’Tis better than Cornell.
And as for the University of Georgia
I’d rather see him in hell!

To hell, to hell, to hell with Georgia,
To hell, to hell, to hell with Georgia,
To hell, to hell, to hell with Georgia,
The cesspool of the South!

Mine eyes have seen the glory
Of the stomping of the Dogs.
We will teach the poor dumb
Farmboys
They should stick to sloppin’ hogs.
When the Jackets are triumphant

There will be a mighty cheer—
We’ll do the same next year!

[chorus]

On the field between the hedges
There arose a mighty stench,
In the Dogs’ machine the engineers
Had thrown a monkey wrench.
When the Jackets are triumphant
We will raise a mighty yell—
Them Dogs can GO TO HELL!

[chorus]

At counting all the cars
And the loans alumni made,
They out-pay the NBA

[chorus]

To hell, to hell, to hell with Georgia,
To hell, to hell, to hell with Georgia,
To hell, to hell, to hell with Georgia,
The cesspool of the South!

[chorus]

Don’t send my boy to MIT
The dying mother said,
Don’t send my boy to Emory
I’d rather see him dead.
But send my boy to Georgia Tech
’Tis better than Cornell.
And as for the University of Georgia
I’d rather see him in hell!

[chorus]
Students must remember safety, common sense

By Amanda Dagan
Editor-in-Chief

You’ve moved into your dorm and made it through your first week of classes. Now you are ready to explore Atlanta and all it has to offer, right? Perhaps not because you have heard horror stories about crime on and off campus.

Fear not as the Tech campus and Atlanta are great places to live as long as you are careful and aware of what you should do to ensure your personal safety.

Violent crime is not a major problem on campus; still, there were 4 aggravated assaults on campus last year. According to Carla Cook, a public safety sergeant with the Georgia Tech Police Department (GTPD) one of the best ways to ensure your personal safety is to be aware of your surroundings. Keep your eyes open for anything out of the ordinary. Trust your instincts; if a situation feels wrong, leave.

If you walk around campus at night, avoid poorly-lit areas. Be aware of the location of the police station in the Beringhause Building. Find out which campus buildings are open 24 hours. Try to avoid walking alone or while intoxicated. Walk in a way that conveys confidence.

Cook recommends carrying a cell phone so you can call for assistance if you need it. If you do not have a cell phone, there are emergency telephones located at strategic locations around campus [see campus map, page 8]. Call the GTPD at 894-2500 or press the large red emergency button for assistance.

If you need a ride from one point on campus to another after Stinger service has ended, the Stingerette is an option. This is a van service that runs until 2:30 a.m. Police are available for escorts after 2:30 a.m.

Taking these precautions can reduce your risk, but is not a guarantee.

One of the best ways to ensure your personal safety is to be aware of your surroundings. Keep your eyes open for anything out of the ordinary.

Here are some tips to follow if you become a victim of crime.

If you are being followed, cross the street, change directions or vary your pace. Do not resist if an attacker is just after your purse, wallet or other valuables. No amount of money is worth your life.

Get a good description of the attacker, looking for distinguishing tattoos or scars. Also try to get license plate numbers if the attacker flees in a car.

Property crimes are more common at Tech than violent crime. There were 116 burglaries on campus last year. The number of break-ins and thefts, bike thefts, and larceny-thefts have all dropped over the past year, but they remain a problem. To keep your property secure, follow these tips.

Whenever you leave your dorm room, close and lock the door. Do not assume that because you are only going to be gone for a few minutes you do not need to lock your door. Also, do not prop open exterior doors.

Cook suggests that students keep a room inventory listing expensive items along with the model number, brand name, serial number, color and approximate value. That way, if something turns up missing, you will be able to report this information to police.

If you own a laptop, keep it with you at all times. Do not leave it unattended in the library or in a lounge, even for a few minutes.

If you own a bicycle, use a U-style lock to secure it. You can register your bike for free by filling out a registration card at the police station.

If you have a car parked on campus, be sure to keep all valuable items out of sight. Park in well-lit areas and avoid leaving your car parked in the same place for a long period of time.

To get regular updates about campus crime, sign up by emailing crimealerts@police.gatech.edu.

Whoa hoo fall training is without a doubt the biggest shaft of them all is it sad that i graduated three years ago and still read the Nique? no, it is a very good thing, thanks for reading! summer semester sucks!!!

The shaft should die!

pity they closed down the French computer lab... maybe they should have promoted it more! Now where do I go when library is overcrowded yet again?!!!
2006 Family Weekend

Presented by

Georgia Tech Alumni Association

Register online at:
gtalumni.org/familyweekend
or for more information please call 404-894-2391

Invite your family back to campus for entertainment and activities including:

- Seminars
- College & School Receptions
- Family Weekend Festival & Dinner
- Campus Tours
- Murder Mystery Dinner Theater
- Movie on the Lawn
- Family Weekend Tailgate
- GT vs. Maryland Football Game
Who am I?

Tech is certainly too large of a school for everybody to know everybody on campus, but there are certainly people around the school that everybody knows, or at least mentions from time to time.

The people on the right represent some of the most important people at the Institute, whose names are often mentioned in the Technique and other places around campus for the contributions they make to the school.

That is certainly not to say that these are the only important people around, or even the most important, but it is a good guide to recognizing the people students constantly come into contact with on campus.

So, take a glimpse at the people depicted on this page as you are likely to run into many of them over your time at Tech, and take the chance to say hello if you happen to see them around; they’d all be happy to know who you are, as well.

Dr. G. Wayne Clough
Institute President

Dan Radakovich
Director of Athletics

Anderson Smith
Vice Provost for Academic Affairs

Reta Pikowsky
Registrar

Chan Gailey
Head Football Coach

Bob Farmiss
Director of Parking and Transportation

Branch out with organizations

Getting involved in a group on campus is easy

By Shrutil Kumar
Contributing Writer

With over 300 campus organizations, Tech offers a wide variety of activities for students to participate in throughout the school year. From Relay for Life to Symphony Orchestra to numerous on-campus fraternities and sororities, Tech attempts to provide an opportunity for every student to get involved.

However, the vast number and types of organizations can be mind-boggling. How does one pick and choose something from the countless activities available?

“You should choose what interests you the most or something that you have never had the chance to get involved in,” said Shelta Bhante, a second-year undecided Engineering major, who participated in fencing for the first time at Tech.

Sure, Tech has plenty of clubs for engineers who want to spend their spare time in engineering groups, but that is certainly not all.

In addition to science and engineering organizations, there are many organizations that allow students to exercise their liberal arts side, such as the Technique, the Blueprint or the Freshman Activities Board.

Joining a club or organization is the easiest way to meet people and with so many options you are certain to find your niche.

Tutoring options help students succeed

By Kyle Thomson
Editor Emeritus

Feeling nervous about your chances of keeping a high GPA at Tech? Abit worried that you suddenly don’t know everything—or at least not more than your classmates? Rest assured, you are not alone. Plenty of tutoring options are available to help students in engineering and other academic rigor.

Your first source of aid is your graduate or undergraduate teaching assistant in your specific class. They generally have knowledge of the particular class you are taking and are easily available. But when that fails, you might be able to find a new tutor through a study session organized by your student affairs or a meeting and ask questions.

Another popular strategy is forming study groups. Other students find it helpful to pool their knowledge in class. However, students should be aware of the Honor Code and other restrictions on sharing notes or cooperating on homework and other assignments.

The Wesley Foundation at Georgia Tech

Worship / Prayer / Devotion:
- Sunday Celebration – Sundays, 11:00 AM (traditional worship)
- Kolononia – Mondays, 6:30 - 8:00 PM (contemporary worship), Free dinner at 6:30 PM.
- Artsos – Thursdays, 11:00 AM (contemplative prayer, w/ free lunch)
- Virtual Chapel – an online devotional; read it on-line or subscribe through our website (http://www.gtwf.org/vc.htm)

Bible Study / Seminars:
- “Joan of Arcadia” – Tuesdays, 6:45 PM, before fall break.
- Bach and Forth – Tuesdays, 6:45 PM, after fall break. Classical music appreciation
- A Look at the Book (Bible Study) – Tuesdays, 11:00 AM, beginning August 29. Jeremiah (before fall break), Luke (after fall break).

Outreach Opportunities:
- Habitat for Humanity – Aug. 26 – Sept. 30
- St. Mark Supper Club – Tuesday afternoons
- Relay for Life – Spring semester
- Spring Break Mission Trip

The Wesley Foundation at Georgia Tech is a ministry of the United Methodist Church.
We are on the corner of 4th and Fowler Streets, East Campus.
Phone: 404-892-6317 • http://www.gtwf.org • e-mail: wesley@gatech.edu
The **Technique** proudly presents...

1. Go to the beach. Any one will do.
2. Ride the elevator to the top of the Westin Peachtree Plaza Hotel. It rotates.
3. Eat at Junior's (and wonder why Tommy isn't in charge of all campus dining).
4. Buy a class ring (the year can be changed).
5. Drop a class.
6. Go to the top of the Mason Civil Engineering Building and watch the sun set or rise.
7. Wear your RAT cap.
8. Go to the top of Tech Tower (somewhere, sent you).
9. Ride the elevator to the top of the Civil Engineering Building.
10. Go to the top of the Architorture building. Take a care package of Vivarin and Red Bull.
11. Visit the Career Services office (before your senior year).
12. Blow off homework for a week.
13. Work with a professor on a research project for a semester, summer or a week.
14. Wake up. It was only a bad dream. See #89.
15. Relax in the green space on campus.
16. Tour CNN Studios and visit Centennial Olympic Park (they are both within walking distance).
17. Meet your roommate. The sooner the better so you can find out if they will be useful.
18. Go to a DramaTech production.
19. Get a degree.
20. Go to Savannah for St. Patrick's Day.
21. Fall asleep on your keyboard.
22. Put on weight.
23. Learn the words to "Up With the White and Gold."
24. Take aspirin and reconsider in Technology Square, know as #89.
25. Go to the top of the Architorture building and watch the sun set or rise.
26. Go to the top of the Architorture building, wear your RAT cap and watch the sun set or rise.
27. Take the Stinger to the CRC.
28. Go to the top of the Architorture building and watch the sun set or rise.
29. Take a final. When you're done, feel free to steal a "T" off Tech Tower.
32. Pick up a guy or girl in the Library West Commons.
33. Light sparklers in your on-campus apartment to celebrate New Year's.
34. Run in the Freshman Cake Race. Senator Sam Nunn did, and look what it did for his career!
35. Sneak a large metal beer-distributing object into your dorm. When it's empty, pass it out.
36. Figure out why differential equations are important things to know.
37. Vote in an election in the Georgia Tech precinct (why not this November?).
38. Put on weight.
39. Work out at the CRC. See #89.
40. Be in the Blueprint (somewhere, anywhere).
41. Date someone from another school.
42. Imagine that your roommate is getting paid to ruin your life. Get back on campus in time for Midnight Madness (watch out for the GTPD).
43. Realize that your profs are, in fact, getting paid to ruin your life.
44. Go to a DramaTech production.
45. Make a movie for iMovieFest, or Delta Campus Movie Fest, or whatever it happens to be called this year.
46. Have a long conversation with someone on a bench on Skiles Walkway.
47. Ask someone the date, then realize you're three days behind.
48. Get some condoms. Use when appropriate (guys and gals).
49. Successfully appeal a parking ticket.
50. Shank.
51. Go to Under the Couch.
52. Join SGA.
53. Quit SGA.
54. Wish you were home (not too much in your freshman year—it looks bad). The Horror!
55. Streak during Midnight Madness.
56. Road trip to at least one away campus after being shafted by parking mini-trucks.
57. Have a conversation with your boyfriend or girlfriend.
58. Take the Stinger to the CRC.
59. Decide not to go to the CRC when the Stinger fails to arrive promptly.
60. Drink. "Hunch Punch."
61. Take aspirin and reconsider.
62. Make a movie for iMovieFest, or Delta Campus Movie Fest, or whatever it happens to be called this year.
63. Have a conversation with someone on a bench on Skiles Walkway.
64. Ask someone the date, then realize you're three days behind.
65. Go to Athens. This is a No Brain Zone. Plan to stay the night.
66. Sit on the library fountain. Dangle your feet. Wave at your friends as they walk by.
67. Figure out what's at the top of Tech Tower. (A: Absolutely Nothing).
68. Get a degree. If not nearly as obnoxious now that he or she has Word.
69. Think about transferring to UGA or Emory.
70. Eat too many "Naked Dogs" from the "V." Extra points if he replies in the consequences.
71. Ask a professor to join you for lunch.
72. Take the yellow envelope from your old parking tickets and put a slip of paper in them that says "Gotcha!" Put them on all the parking mini-trucks.
73. Have a conversation with the Dean Griffin statue until someone notices. Then stare back like he or she is the weird one.
74. Learn the words to "Up With the White and Gold."
75. Break up, then make up, with your boyfriend or girlfriend.
76. Sleep on your, or your hallmate's, floor by accident.
77. Take the Stinger to the CRC.
78. Get a degree. If not nearly as obnoxious now that he or she has Word.
